

Webinar A student with special educational needs is a young person who needs specific support in implementing the issues of the core curriculum.

Under the concept of special needs of a student, we often focus on the characteristics and care of a disabled student with developmental disorders, often ignoring a gifted student who also needs specific guidance.

A good analysis of the subject matter is the understanding of special educational needs and, above all, the implementation of equal educational opportunities for all students. The task of each teacher throughout the education process is to conduct pedagogical observations - to provide and implement psychological and pedagogical help on an ongoing basis.

Often this is only required of the educator or a given specialist in the facility

However, it is worth remembering that each teacher working with the child is responsible for this process. A good definition of the education process of a student with special educational needs will allow for a well-organized support for him, at the same time avoiding mistakes that may seem insignificant and significantly affect the child's functioning in the institution.

During the meeting, the student will learn the legal basics and requirements for working with a student with special educational needs.

They will learn how to organize their workshop to make it meaningful and have a positive impact on the child's functioning - both in the educational institution and in the family environment. He will be able to use the acquired knowledge to organize his work with a student with special educational needs, as well as to implement the learned practices in the education system in his institution. Working with a student with special educational needs.

OBJECTIVES:Theoretical:getting acquainted with the legal basis of work with a student with special educational needsgetting acquainted with the tasks that are set before the institution and teachers during the education of a student with special educational needscharacteristics of a student with special educational needs.
